Communication/Social skills and competences

I have acquired good communication skills still in high school, when I was part of the school's reading group participating in various competitions of oratory

- During my undergraduate studies I participated twice at the International Summer School organized by my faculty, where I socialized and exchanged experience with foreign students. I also participated in seminars and courses, in the end gaining a diploma in Intercultural Communications.
- In the 2nd year of undergraduate studies I had the opportunity to go with Erasmus mobility program at the Faculty of Economics and Business Administration from the University of Lajos Kossuth, Debrecen, Hungary. It was a wonderful experience, where I received a high quality education and I could participate in many educational and communication programs and I also acquired valuable communication skills during my work experience through PR activities as an advertising and telemarketing agent, activities undertaken simultaneously with my years of study
- I participated at two international simulations, one in Applied EU Decision-making in April 2010, held at the European Parliament in Brussels, Belgium, and the other the UN Model Simulation Game Oradmun-from 12 to 16 May 2011, Oradea, where I could put in practice the theoretical knowledge accumulated over the years of study, and I could foster my communication skills, winning the first place for the best negotiator at both of these simulations
- From 6 to 18 May 2012, I had the possibility to attend an international student meeting SUSCOMTEC Intercultural Knowledge Transfer in Engineering for a Sustainable Global ICT Community in Valencia, Spain, where I delivered a successful presentation before several students and teachers coming from different parts of Europe and beyond. Also in this program I participated in teambuilding sessions and Organizational development classes
- Between 5 to 18 May 2013 I attended the second edition of SUSCOMTEC, which took place in Debrecen, Hungary
- The didactic activity undertaken since the beginning of my PhD. studies, together with participations and presentations at national and international conferences, also played an important role in improving my communication and social skills.
